

BOSaNOVA SECURE

BOSaNOVA SECURE is an all-in-one solution for a completely secure iSeries connectivity. TN5250e includes both display and printer emulation: BOSaNOVA SECURE provides Windows 9x-Windows 7 and Citrix users with a robust TN5250e emulation, printing, FTP and SQL file transfer. BOSaNOVA SECURE is easy to install, configure, and use.

*Demonstrates the external link capability.

Features

✔ Supports Windows 9X - Windows 7	✔ 32 bit and 64-bit installation
✔ Protects through SSL asymmetric encryption	✔ Supports SECURE printing
✔ Small footprint - Ideal for Virtual Desktop	✔ Multi User Install - Ideal for Citrix & Terminal Server
✔ Single Socket Layer (SSL)	✔ 1-year support Included
✔ Password Substitution*	✔ Offers rich display environment
✔ Helps with PCI/HIPAA Compliance	✔ Ensures server authentication with self-signed certificates

Did you know . . .

that most computer security breaches occur inside organizations? Eavesdropping, unauthorized modification and impersonation are among the many rampant dangers attacking internal communications via the internet or intranet.

* This is useful if SSL is not used - data is not encrypted, but in case of Sign-On bypass, the password is not sent as clear text, but is replaced by a hash code.

Advantages

1	Offers rich TN5250e display environment, including toolbars, macros, keyboard mapping and MorphExpress™ On-the-Fly GUI.
2	Supports display and printer session names (workstation IDs).
3	Offers TCP/IP printing capability designed especially to print AS/400 data on local or networked printers.
4	Password Macro Protection
5	Supports external link capability for display of files and folders based on related text on the emulation screen.
6	Customized Background Bit-Map
7	Includes SQL-based data file transfer utility designed specifically for use with the AS/400.
8	Easy to install, use and maintain, with small footprint and modest memory requirements
9	FTP - File Transfer Protocol

SSL Module

- Encryption of up to 128-Bits.
- Creates secure display and printer sessions
- Connects to iSeries SSL Telnet Port 992

SECURE Module

- Supports displays 5251, 5291, 3196, 3179-2, 3180, 3477FC with ECB support.

Ordering Information

PID	Description
2920	BOSâNOVA Secure Web Download Copy
2940	BOSâNOVA Secure - 32bit License
2964	BOSâNOVA Secure - 64bit License
2940 -SITE	Secure - Enterprise License (Call Sales Office)
2940 A	Add Secure to licensed copy of BOSâNOVA TCP/IP
MSEC	Annual Maintenance Renewal
